“ We met Jason back in 1980 when my husband was working at Harold's body shop. We spent a lot of time at Jason's house with him and Zetta. We sold Amway together and use to make trips to Kingsport to meetings. They were very dear friends of ours. I later found out that I was related to Jason through the Bailey's. One year at Christmas Jason bought us a family bible and had our names engraved on it. We still cherish it till this day. Love and prayers for all his family. He will be greatly missed.
